REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board of Chichester :

I have the privilege of submitting to you, and through you to the citizens of Chichester, my second annual report as superintendent of schools. This is the third in the series of such reports. A report of this nature is assumed. I take it, to review to some extent the work of the year past, and to outline some of the hopes and reasonable expectations of the year ahead. I shall consider not merely what has been, but also what may be.

School work, like work of every kind that aims to be progressive, has not only its encouraging features but also its discouraging features; it has its ups and it also has its downs. Progress is never a steady movement forward. A moment's thought will convince us of the futility of expecting this. I am sure that we may truthfully say that the resultant of the ups and downs of the past year has been an upward movement. The general work in the school-room has shown an improvement which you had a right to expect. It has, however, by no means reached the standard it may become. There has been a general bracing up and toning up. There has been improvement in the work of the teachers and in the work of the pupils. Of course this is manifest in some schools more than in others. I find the children thinking better, reading better, and more disposed to work. Hard work is as essential for success in the work of the school-room as it is elsewhere in life. The notion that modern management and methods in any sense take the place of work and application on the part of the pupil is an erroneous one. They are and always will be indispensable to advancement. To my mind the children, on the whole, have made commendable progress this year.

As seems inevitable under the present conditions, we have had several changes in the teaching force during the year. Miss Dunphy resigned her position at the Center school at the close of the spring term and Miss Mildred F. Collins of Rochester was chosen to fill the vacancy. Miss Collins is a graduate of Plymouth Normal School and had had some experience in teaching before entering the Normal School. She has proved herself a teacher of much ability and character and exceptionally well fitted to handle the problems at this school. The school work has gone on smoothly and successfully. Miss Towle resigning at Kelley's Corner, Miss Kathryn Shaw was transferred from New Dover, and Miss Mary R. Webster was transferred from Pine Ground to New Dover. Mrs. Bertha L. Tasker, a woman of experience and force of character, was chosen to fill the vacancy at Pine Ground. Miss Flossie Saltmarsh, a graduate of the Concord Training School, began work at Horse Corner at the opening of schools in September, but was obliged to resign after a week's service because of illness. Miss Saltmarsh was a well-equipped teacher and it was extremely unfortunate that she was obliged to resign. After some delay Miss Gertrude Niles was secured for this school. With wider experience and training Miss Niles will make a strong teacher. Miss Place, Miss Webster, and Miss Shaw have continued their good work of last year. The difficulty of securing well-equipped teachers for the small country schools is yearly growing more difficult. It is only by offering them higher salaries that we can hope to attract the better class of teachers. We are paying more this year for our teaching, but experience testifies to the fact that the higher salary is generally the more economical one. Three of our present force of teachers, namely, Miss Place, Miss Collins and Miss Shaw, have been certified by the state department of public instruction. Were it not for the fact that the equalized valuation per pupil in this town is so high the district would draw \$6.00 per week from the state for the employment of these teachers.

We have had thirty-four weeks of school this year, divided as follows: Spring term, 12; fall term, 12; winter term, 10. At Horse Corner the spring term was shortened two weeks advisedly. Thirty-four weeks is probably as long a school year as is advisable at this time. The attendance has been generally good, considerably better than last year. It was all but perfect in regularity at the Bear Hill school during the spring term. The number of tardinesses have been reduced over sixty per cent. from last year's figures. There is always a falling off in attendance during the latter part of the winter term. Would it not be feasible to open earlier in the fall?

A new feature of the school work this year has been the regular and systematic teaching of music in accordance with the vote of the district. This work has been in charge of Miss Sophronia Yeaton of Epsom, who also has charge of music in her own town. Miss Yeaton has had special training under Mr. Abbott, formerly supervisor of music in the schools of Manchester and now holding a similar position in Buffalo, N. Y. Miss Yeaton has shown ability and adaptability, and her work has been a success. It is not to be expected that the children will be developed into musical artists, but rather that they will learn something of the mechanics of music, that their ears and voices will be improved, and that they gradually get some notion of what good music is. I am certain a good beginning has been made and I trust that the work in music may be continued.

One change in text books has been made. The old series of Milne's arithmetics has been displaced by Milne's progressive arithmetics. The new series has been found workable and more satisfactory. A beginning has been made in supplying the pressing need of more reading material. Considerable additional material should be purchased this next year. Our regular text-books now in use are satisfactory, with the exception of the physiology. We need something different, a text that emphasizes hygiene.

In the matter of repairs I would suggest the need of more and better blackboards in some of the schools. It is impossible to get too many good blackboards into a schoolroom. They can all be of service. I would further suggest the need of constructing a new shed or outhouse at Horse Corner.

During the year I have made 150 visits to the schools. These, of course, have varied in length. Some schools are at times in more urgent need of attention than others and I have arranged my visits accordingly. I have endeavored to use my time in the most advantageous way. I have attended two conferences of the superintendents of the state, the meeting of the state teachers' association, and two institutes held by the state department of public instruction. I have three times met with the local school board for conference. I have succeeded in getting the teachers together for two local meetings. Upon invitation I gave a talk on school matters before the Chichester Grange. My work in method and detail has been carried on much as outlined in my last year's report. I have found the teachers open-minded and willing to receive and carry out suggestions in so far as they were able. I wish to thank them for their loyalty and their graciousness in this particular.

In order to have ideal schools we must have ideal parents, ideal children, ideal teachers, ideal equipment, ideal physical conditions, and an ideal superintendent. I do not presume that all or any of these ideals have or can become realities. However, it is the business of us all to see to it that everything is done that is possible which will help bring us nearer these ideal conditions.

Respectfully submitted,

CHANNING T. SANBORN,
Superintendent of Schools.

ROLL OF PERFECT ATTENDANCE.

KELLEY'S CORNER.

Spring Term.
